

PELLA®

Impervia®

FIBERGLASS WINDOWS AND SLIDING PATIO DOORS
WITH OUTSTANDING BEAUTY AND PERFORMANCE.

Durability of fiberglass.

Increase your comfort inside, no matter the weather outside. If your home is near the shore or a beach, high on a mountainside or somewhere in between, Pella® Impervia® fiberglass windows and patio doors are strong and stable enough to endure extreme heat or cold, damaging UV rays and sea air.

What can fiberglass do for you?

It will complement your home with the quality look of a painted window and can increase energy efficiency and comfort. Plus, the interior and exterior of your windows and patio doors arrive with a durable powder-coat paint finish that will last for years.

Performance highlights.

Pella Impervia products are made from Duracast® fiberglass composite – it's the strongest, most durable material available for windows and patio doors.¹ They won't warp in the heat or become brittle in the cold.

Pella Impervia windows and patio doors offer the energy-efficient options that will meet or exceed ENERGY STAR® certification in all 50 states.²

¹ In testing performed in accordance with ASTM testing standards, Duracast fiberglass composite from Pella has displayed superior performance in strength, ability to withstand extreme heat and cold, and resistance to dents and scratches. Pella Impervia Special Shape windows are made of a non-Duracast fiberglass composite.

² Some Pella products may not meet ENERGY STAR certification in Canada. For more information, contact your local Pella sales representative or go to nrcan.gc.ca/energy/products/categories/fenestration/13739.

Durability of fiberglass.

Pella® Impervia® fiberglass products are made to stand up and stand out with exceptional energy efficiency and low-maintenance features – all with the quality look of a painted window.

Withstands high heat and subzero cold.

Duracast® material – Pella's patented, five-layer, engineered fiberglass composite – is ideally suited for all climates.

INTERIOR

Interior White is available with optional dual-color exterior, or choose the same color for the interior and exterior of your home. See color options on page 10.

Backed by one of the best warranties in the business.

The Pella Limited Lifetime Warranty is nonprorated, meaning the coverages within the defined warranty periods do not decrease over time. See written warranty for complete details at pella.com/warranty.

EXTERIOR

Pella Impervia's durable powder-coat finish is available in five colors. See all options on page 10.

Beauty that stands the test of time.

Pella® Impervia® windows provide years of outstanding performance and beauty that complements the look of your home inside and out.

WINDOWS

Sliding Windows

Easy operation.

Tandem nylon rollers are extra-durable and help ensure smooth openings and closings.

A tighter seal against the elements.

Pella's cam-action locks pull the sashes against the weatherstripping.

Simple to clean.

Sliding sash can be removed to clean exterior glass from inside your home.

Casement and Awning Windows

Smooth openings and closings.

Stainless steel operating arms and hinges resist rust and corrosion.

Simple to operate.

SureLock® System secures the window in two places with one easy-to-reach handle.

More convenient handle design.

Fold-away handle won't get in the way of roomside window treatments.

A breeze to clean.

Easy-clean wash feature makes it simple to clean the exterior glass from inside your home.

Double- and Single-Hung Windows

Easy operation.

Our advanced balance system helps ensure your window will open and close easily for years to come.

Strong protection against the weather.

Pella's cam-action locks pull the sashes tight against the weatherstripping.

Easier cleaning.

Opening sash tilts in¹ – making it easy to clean the exterior glass from inside your home.

CHOOSEPELLA.COM/OFFERING

Bay and Bow Windows

The right fit for your home.
Choose between 30° and 45° bay windows and 4- and 5-unit casement bow windows. Standard and custom sizes and angles are available.

Extra comfort and charm.
Options include beautiful birch and oak headboards and cozy insulated seatboards.

Beautiful wood frames.
Bay and bow wood frames come unfinished, ready to be painted or stained.

Combination, Fixed and Special Shape Windows

Curves, angles and more.
Special Shape windows, made from fiberglass resin (non-Duracast® fiberglass composite), beautifully complement other Pella® Impervia® windows and patio doors.²

A quality, seamless look.
Grille options are available to match other Pella Impervia products.

More ways to express your style.
Factory-assembled window combinations allow you to create a stunning focal point in your home.

Sliding Patio Doors

Exceptional security.
Pella Impervia sliding patio doors, with multipoint lock hardware, have been awarded an ASTM Grade 40 security rating – the highest in the industry.

Better draft protection.
Pella's unique design puts the sliding panel on the outside. So when the wind blows against it, it creates a tighter seal. Plus, the screen is protected from the elements.

Easy to use.
The roller system on the sliding panel helps ensure easy openings and closings.

¹ Available on double-hung windows only.

² See your local Pella sales representative for details.

Comfort in. Weather out.

Pella® products offer exceptional energy-efficient performance wherever you live.

Glass at a glance.

Pella's InsulShield® Low-E Glass Collection¹ features our most innovative and energy-saving choices, designed for your specific needs.

For many U.S. climates.

GLASS TYPE: Advanced
Low-E Insulating Glass with Argon²

Unique Low-E technology delivers balanced insulation for cold winters and hot summers.

For very hot, sunny climates.

GLASS TYPE: SunDefense™
Low-E Insulating Glass with Argon²

Allows in visible light and provides a clear view, while helping to block the heat of the sun.

Hawaii

¹ Glass options can be upgraded to offer the benefits of our InsulShield Low-E Glass Collection. Glass options may vary per product. See specific product information for availability.

² Optional high-altitude Low-E insulating glass does not contain argon in most products. Please see your local Pella sales representative for more information.

³ Some Pella products may not meet ENERGY STAR® certification in Canada. For more information, contact your local Pella sales representative or go to nrcan.gc.ca/energy/products/categories/fenestration/13739.

⁴ Ranges are based on the average savings among homes in modeled cities. Actual savings will vary based on local climate conditions, utility rates and individual home characteristics. For more information on the benefits of ENERGY STAR certified windows and doors, go to energystar.gov/products/building_products/residential_windows_doors_and_skylights/benefits.

For cold climates – like northern U.S. and Canada.

GLASS TYPE: NaturalSun
Low-E Insulating Glass with Argon²

Allows the sun's heat to flow in and warm your home, while providing excellent insulation from the cold.

For northern U.S. climates.

GLASS TYPE: AdvancedComfort
Low-E Insulating Glass with Argon²

Unique Low-E technology delivers balanced insulation for colder winters and moderate summers.

Helping you save on heating and cooling costs.

Installing ENERGY STAR[®] certified windows and doors can lower energy costs.³ With more efficient windows, you can also use less energy, which reduces greenhouse gas emissions from power plants.

For a typical home, when replacing single-pane windows with ENERGY STAR certified windows, you can save on average:

\$101 to
\$583 per year

And 1,006 to 6,205 pounds of carbon dioxide (CO₂), which is equivalent to 51 to 317 gallons of gasoline a year.⁴

Available on ALL Pella[®] products.

More panes, more gains. Many older homes have single-pane windows, which can lead to higher heating and cooling costs and drafty interiors. Multiple panes of glass create an air chamber that can dramatically increase energy efficiency and comfort.

Glass for a wide range of needs.

In addition to exceptional energy efficiency, you'll find great glass options that help with privacy, glare and noise control.

For more information on glass, see your local Pella sales representative or visit:
